Our Mission

Our mission is simple: to offer the finest quality of tea, and best service to our brand partners. We got started in 2015 in Delhi, before then we were based in Assam and were a supplier of Assam tea direct from tea growers to domestic markets. We were more than 100 plus export tea gardens under our umbrella, some of them are the small farmers and privately owned by organic farming. From there, we directly purchase tea at a fair price and supply it to the world. Based on our performance and hard work, we have become a major supplier of Indian tea to more than 25 plus countries and our product blends are listed in the major online markets (eBay, Amazon, Flipkart) as well as available in offline markets. With a firm commitment to quality, our expert tea taster having extensive knowledge of tea, crafted more than 200 plus finest blended blends to suit your requirements.

We help our customers learn to enjoy and appreciate tea more. We strive to have unmatched quality, uniqueness, and consistency in our tea.
